Appropriate Technology for Organic Agriculture

As an Organic Grower you know what needs to be done to produce a high quality product. You also know that smaller scale growers have the most to gain from mechanization because you must do it all—grow, harvest and market.

For 20 years Ferrari Tractor CIE has located and supplied the best equipment for every job from walk behind tools to large scale tractors and implements. Whatever your crop and whatever your scale of operation high quality innovative machines are available to help you produce efficiently.

Here are a sample from hundreds of machines available.

Compost Spreader

Drill for Vegetables

Potato and Garlic Digger

This Rotary Plow creates Raised Beds as seen below.

Harvest Herbs and Greens

Drills for Cover crop

Hay Baler

PTO driven Threshing machine

Bidirectional Tractor

Bale Hay or Grain

Grain Combine

Spading Machines
